

# CV

My name is Martin Bjørnskov and I am currently studying multimedia design at Business School South West, while doing study work at ESVAGT. I am Currently based in Esbjerg, Denmark.

I am Danish and are “humongous” fan of the Nordic and Scandinavian simple design style. In my opinion white is one of the most beautiful nuances you are able to reach in a design.

As an incredibly careful graphic designer, with eye for the detail my opinion is that design is never finished, but some is good enough to be delivered to the customer. With that in mind, you are sure to receive a well worked product from me, that you for sure will be satisfied with.

## I AM GOOD AT

Adobe Photoshop

Adobe Lightroom

HTML/CSS
